

ESPERANCE PORTS

Sea & Land

MEDIA RELEASE

Tuesday 12 August 2014

Esperance Ports Sea and Land CEO Brad Williamson said the assistance of Fair Work Commissioner Cloghan in the Port's enterprise agreement negotiations yesterday had been beneficial.

Mr Williamson said Commission Cloghan had worked with both parties in an effort to reach an agreement and avoid industrial action planned by the MUA and maintenance employees.

Industrial action was planned for five days but was called off following the intervention and recommendation of the Commissioner.

Discussions ended yesterday with a request by the Commissioner that the parties meet again in Perth.
